

Winter 2014

Dudgeon-Monroe Neighborhood Association

## Update: 3414 Monroe Street

By Lynn Pitman, Zoning Committee Chair

The DMNA Zoning Committee has been monitoring the proposed redevelopment plans for 3414 Monroe Street. Several approvals are required before

the project can go forward. Because the redevelopment requires the demolition of the existing building, formerly leased to Madison Opera, approval by the city's Plan Commission is required before the project can go forward.

The new project also required a review by the city's Landmark Commission. The adjacent Arbor House property includes the Plough Inn, which was built in the 1850's, is on the National Register of Historic Places, and has city Landmark status. The review was to determine whether the height and massing of the proposed project would have a negative impact on the Land-

mark status building. The Commission reversed its initial opinion and decided that the project would adversely impact the property in a meeting on October 20.

The owner and developer of 3414 Monroe, Patrick Corcoran, had originally presented a rough schematic of a four-story building at a neighborhood meeting in late spring of this year. Concerns about traffic, parking, height and massing, environmental impacts, and side setbacks from the Arbor House property line were discussed. Project plans for a three-story, 22,000 square foot project were developed and submitted

## Winter Solstice: Boom! Boom! Boom!

By Dorrie Sundquist, Parks and Gardens

Join us as we welcome the winter at a Celebration of the Solstice. Come Sunday, December 21, from 5:30 to 9:30 p.m., to Glenwood Children's Park. Boom! Boom! Boom! Enjoy s'mores and apple cider as we circle around a bonfire with drums and percussion instruments. Borrow a few of our instruments or feel free to bring your own noise makers. All drum types are welcome: rattles, shakers, bongos, or your own creation. Boom! Boom! Boom! This celebration of the Winter Solstice, an age-old tradition, is an opportunity to experience a night of inspiration as we look forward to longer and lighter days. Bring your family, neighbors and friends to revel in this time of honoring the darkness and the light. All are welcome to this event sponsored by the DMNA Parks and Gardens Committee!

## Watch for Bus Benches

By Charlie Crisanti, Transportation Committee Chair

If your Block Captain has already visited you for the fall membership drive, you are probably aware that membership dues are \$7.00. However, did you know that any funds you donate in addition to \$7.00 are currently being set aside to purchase bus stop benches within the neighborhood? With stops along both Commonwealth Avenue and Monroe Street, the neighborhood has many locations to choose from. Not every location will get a bench, but we hope to be able to purchase 1-2 benches for each street.

The Transportation Committee has had preliminary talks with city staff about the process to sponsor bus stops along Commonwealth Avenue now that street recon-

struction there is finished. This process will include the site selection, bench purchase, city approval, and an installation and maintenance plan. The DMNA will also notify property owners adjacent to proposed bench locations and solicit their feedback. Once locations are finalized, the city will install new or expanded concrete pads between the curb and sidewalk in order to accommodate installation of the benches. This could be completed by mid-summer, at which time the new benches would be installed. (Stops along Monroe Street will be addressed after reconstruction.)

If you would like to help the Transportation Committee with this project or have any questions, please drop me a line: [charlie.crisanti@gmail.com](mailto:charlie.crisanti@gmail.com)

## Winter 2014

The Dudgeon Monroe Neighborhood Association's Hornblower is published four times a year.

Article deadline for the next issue: February 13.

### DMNA Officers:

President: Al Nettleton,  
president@dmna.org

Vice President: Charlie Crisanti

Treasurer: Julia Billingham  
treasurer@dmna.org

Secretary: Marcia Diamond

[www.dmna.org](http://www.dmna.org)

# President's Message

DMNA Council meetings are always interesting and challenging. In November, the officers, committee chairs and at-large members reviewed several important issues and made some important decisions. Here are some things you should know:

- The DMNA Annual Meeting and elections will be Sunday, April 19.
- Jazz in the Park will be Saturday, June 20, the day before Father's Day, as usual.
- We are working with the developer of "The Monroe" apartments to make sure some final neighbor concerns are addressed.
- The DMNA Parks and Gardens Committee is considering adopting ash trees in Wingra Park and funding immunization against Emerald Ash Borer disease.
- DMNA will print new directories after this fall's membership drive data are entered.
- DMNA spoke at the Madison Landmarks Commission about the proposed development at 3414 Monroe Street and registered concerns about the adverse impact on the Arbor Inn and parking issues.
- We appointed a new Nominations Committee consisting of Julia Billingham, Sandy Stark, and Jim Lake.

The members of the Council are all volunteers. We don't always agree on all items and that is part of the fun of being involved.

Are you a member of DMNA? If not, see the article on membership in this issue and mail in your membership form, dues, and hopefully, a tax deductible contribution

to our capital fund for bus stop benches. Would you like to join us and be on a committee, chair of a committee, or an officer? If yes, please send an email to [membership@dmna.org](mailto:membership@dmna.org) and we will get you in touch with the appropriate person. A flier is included in this newsletter with a membership form and information on committees.

*Al Nettleton, DMNA President*

## Zoning *continued from front page*

to the city on September 22 and were presented to the neighborhood. Review of the project was on the agenda for the November 10 Plan Commission meeting. Because the submitted plans were under the height and square footage maximums allowed by the Traditional Shopping Street (TSS) zoning designation, demolition approval would mean the project could go forward without any other city approvals.

Because of the Landmarks Commission decision and continuing concerns about parking and the side setbacks from the Arbor House, the developer has asked that the project review by the Plan Commission be referred to a later date in November. The DMNA Zoning Committee will continue to follow the project and welcomes continued communication among all parties.

For updates, please visit [www.dmna.org/zoningcommittee](http://www.dmna.org/zoningcommittee).

SUPPORT. BELONG. ENJOY.

# Directory Volunteers Needed!

By Julia Billingham, Nomination Committee

Following this fall's membership drive, a new DMNA Directory will be published. The DMNA is requesting your help, either short-term, contributing even a couple hours of time, or through the entire production of the directory. Neighbors are needed to enter the new data, contact neighborhood businesses, compile the directory, work with the printer, and edit the directory before it goes to final print. Work opportunities

will begin in January 2015. Furthermore, the Directory Committee is in immediate need of an individual to chair this committee through the full process of production. Plenty of support will be provided by the DMNA Council and by committee volunteers. No direct experience is needed for the chair position, but this individual should possess great organizational skills, attention to detail, and commitment to completion.

Please email [membership@dmna.org](mailto:membership@dmna.org) if you or someone you know could fill any of these volunteer positions. Thank you!

The Directory was initially due to be distributed this past October, but due to a glitch in the database, the directory needs to be revised and reprinted and will use this year's membership data. If you have received a copy of the 2014/2015 directory, please recycle that copy and await the completed version.

# Your DMNA Membership: Thanks - Or Mail Yours Today!

By Linda McQuillen, Membership Committee Chair

By now you have probably met your Block Captain who came to your door to talk about the DMNA, gave you a copy of the lovely Park and Pleasure Drive booklet, asked for your \$7 annual dues and your donation to the Capital Fund, and talked with you about the need for volunteers to help keep the DMNA the vibrant and effective organization it is known to be. If that has happened, thank you very much for whatever support you gave.

If that has not happened, perhaps you weren't home when your Block Captain came to your house. In that instance, you probably found materials left by your Block Captain—the booklet which is yours to keep and enjoy, a flier with an explanation of the ongoing Capital

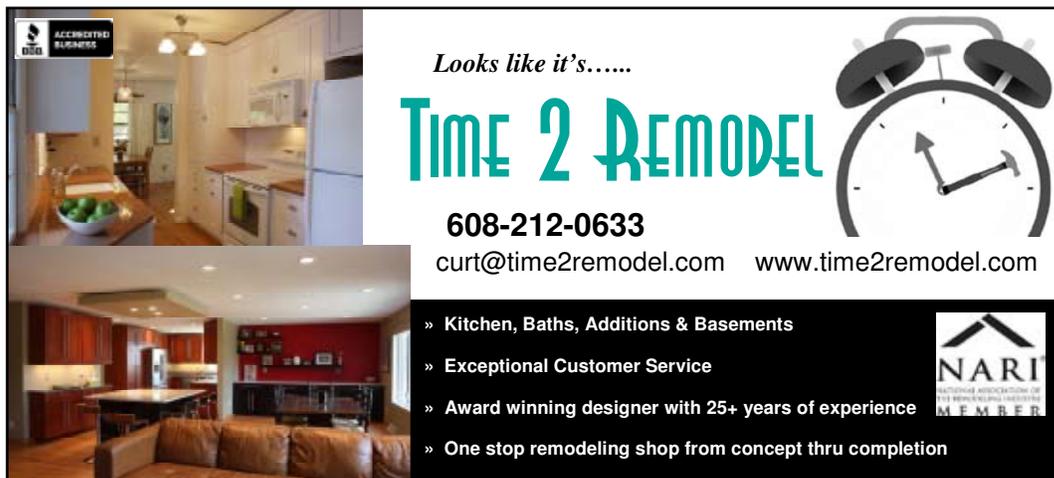

Fund drive to support benches at the bus stops in our neighborhood, a list of the ways you can volunteer in the DMNA, and your membership form. If you have not already done so, please return that form (to Linda McQuillen at 2107 West Lawn Avenue) and your check made out to the DMNA for your dues and Capital Fund donation.

Perhaps you live in a multi-family building or another secured building that is not accessible to a Block Captain doing door-to-door canvassing. Perhaps your Block Captain missed you and membership materials were not left at your door. Perhaps there is another reason why you have not had an opportunity to join the DMNA. If that is the case, this is your opportunity now.

Please complete the membership form inserted in this newsletter. If you can volunteer to do short-term projects or serve on any of the standing committees, indicate so on the form. If you'd like to make a contribution to the bus bench fund, indicate that amount in the box on the form and include that with your dues in a check made out to the DMNA. Return the form and check to the address on the form as soon as possible so that you will be included in the next neighborhood directory.

We hope that each of you who live in the DMNA will take this opportunity to join the organization and consider volunteering if you have not yet done so. It is the \$7 membership dues that support the work of the DMNA and the volunteers who are the organization.

Thanks!

# Capturing Our History

By Stephen Billingham, History Committee Chair

Our Dudgeon-Monroe Neighborhood Association makes history and celebrates our fortieth year as an organization! Our neighborhood abounds with

some of the most beautiful historic sites in Madison, and in Wisconsin.

A few of the wonders include the oldest existing residence in Madison, the historic Plough Inn (now restored as part of the Arbor House Bed and Breakfast), built with the rock from the old quarry which later became Glenway Children's Park, the site of the historic native plant garden and council ring designed by the great landscape architect, Jen Jensen. The pulsing artery of our neighborhood was known as Monroe Road--a first 'official' road in Wisconsin, following an ancient Native trail that passed Wingra Springs and across the state--later renamed Monroe Street to reflect the growing sophistication of our city. In 1937, the Knickerbocker Ice Company delivered 1000 railroad cars of Lake Wingra ice down Commonwealth Avenue and on to Chicago. In short, our ever-evolving Monroe Street neighborhood has great history, and the story is still being written.

Exploring these many historical treasures of the Dudgeon-Monroe neighborhood is the mission of the DMNA History Committee. The DMNA History Committee will soon reconvene. New members are vitally needed to preserve our history and to document the present before our time passes away.

The first prototype Marshall Erdmann modular medical office building will likely soon face demolition. The 'Gay business building', built by the Gay brothers who were our original real estate developers, is undergoing radical renovation. Emerald Ash Borer Beetles will cause major reforesting in our neighborhood and change our

arbor vistas. Contemporary buildings are rising up to bring new residents, architecture, and businesses to the neighborhood. Oral history from our long term Dudgeon-Monroe residents will not be available forever, and risks being forgotten and lost.

Neighbors who want to be part of, and make, history, are highly encouraged to contact the DMNA History Committee at: [history@dmna.org](mailto:history@dmna.org).

DMNA published a history booklet in 1998. At [DMNA.org](http://DMNA.org), click 'Our Neighborhood', and then click 'History' to see it. History Committee information is posted at [DMNA.org](http://DMNA.org). Click 'Officers and Committees', and then click 'History'.

## Volunteer for a Stronger DMNA

By Julia Billingham, Nomination Committee

Could you volunteer a few hours of time to the DMNA? All of our committees would gladly welcome new members! Opportunities from small and short-term to continued and committed are always available with the committees of Jazz in the Park, History, Zoning, Membership, Directory, Social, Transportation, Parks and Gardens, SW Commuter Path, Website, and Hornblower. At-Large Council Member positions are also available, to serve as decision-makers of neighborhood issues during the monthly DMNA Council meetings. Please email [membership@dmna.org](mailto:membership@dmna.org) if interested.

# Getting to Know the DMNA Council

By Linell Davis and Aileen Nettleton

About five years ago, Tom Huber invited his neighbor Barbara Samuel, who lives on West Lawn Avenue, to serve as an “at-large member” of the DMNA Council. This is Barbara’s third major round of involvement with DMNA.

About 30 years ago she was first on the Council and helped plan the Alternative Parade of Homes in the neighborhood. Her second time was 20 years ago when her garden was included on a neighborhood garden tour. She has also served on the Transportation Committee. Barbara says she is a “strong advocate for our neighborhood and DMNA. We have many great people serving our little community, and I’m happy to be a part of it.”

Charlie Crisanti is currently serving the Dudgeon Monroe Neighborhood Association as Vice President and chair of the Transportation Committee. He has lived on Crandall Street since 2010 and became involved with the Transportation Committee a year and half later. Articles in the Hornblower first got him interested in what was happening in the neighborhood. After seeing a note requesting help with the Transportation Committee, he attended a flag-making meeting. He agreed to become chair of the Transportation Committee in the summer of 2012 and was elected Vice President at the April 2014 annual membership meeting.

The “desire to have an impact on the neighborhood where my wife and I are raising our family” was his motivation for getting involved in DMNA. He adds: “My

wife and I love the neighborhood because of its walkability. We like being able to walk to the lake, restaurants and shops, as well as the proximity to campus and downtown.”

Thank you, Barbara and Charlie, for your service to our DMNA community.

## Your Words Here

On a cold, drizzly Sunday afternoon in March, looking for a fixer-upper starter home, Larry and Bobbi Zehner came upon a single family dwelling, long deserted and in desperate shape. The Zehners were not deterred, however. “Young and innocent, we overpaid for an empty structure condemned by the city.” Prompted by the The Hornblower’s recent memories from other neighbors, they share this reflection:

### Despite the Odds By Larry and Bobbi Zehner

The small, vacant two-story shack Shrouded in black tar paper with neither plumbing nor electricity, languished for two solitary years. Despite the crumbling foundation, Despite the enormous investment, Despite the years of labor ahead, Despite the countless misgivings... The abandoned structure’s potential Mirrored the newlywed couple’s hope. Thirty-six years: all three standing.

Neighbors are invited to attend Council Meetings and get to know members and the business of the organization. Check the DMNA website calendar for time and location of Council meetings, usually held the first Wednesday of the month at Wingra School Library.

Do you have a story or reflection you’d like to share with us? If so, The Hornblower would like to hear from you. The submission guidelines are:

- You must now live in the neighborhood.
- The topic must be about the neighborhood in some way.
- The piece cannot have been previously published.
- The length may be up to 15 lines of a Hornblower column. (Pieces may be edited for length.)
- Pieces must be submitted by e-mail to: hornblower@dmna.org
- Sender must include: full name, e-mail, phone, and address.

The Hornblower editorial board will decide on which piece will be selected for the next issue. You may only have one piece published each year. Check the deadline for submission in your current Hornblower. Thank you to all our wonderful contributors to date!

# Neighborhood News Briefs

## Monroe Street Christmas Walk

The Annual Monroe Street Christmas Walk will be held in the 1700-1900 blocks of Monroe Street on Sunday, December 7, from 12:00-4:00. The Monroe Street Carolers sing songs of the season in each of the participating shops and restaurants. Many of these Monroe Street businesses will be providing holiday refreshments, entertainment, or other special activities, and there will be a prize drawing at every participating business.

## Sidewalk Snow Removal Regulations and Assistance

To make public sidewalks safe for pedestrians, the owner or occupant of property immediately adjacent to a public sidewalk is responsible for the removal of any snow or ice that accumulates on the sidewalk. Residents are required to clear snow from their sidewalk by noon of the day after the snow stopped. In the event that removal of ice is impossible, the property owner or occupant is required to use sand, salt or other suitable substance to prevent the ice from being dangerous. This should be done by noon of the day after the snow/ice stopped. Ice can be more dangerous and intimidating than snow. The sooner and more completely you shovel, the less likely ice will form.

If the sidewalk has not been cleared by the required time, the property owner can be issued a citation with a fine. Crews will remove the snow and ice from the sidewalk. Property owners will be billed for this service. See <http://www.cityofmadison.com/residents/winter/snowIce/snowrules.cfm>.

If you are unable to clear snow due to age or disability, please call the Building Inspection Division at 266-4551 and ask to speak to a Property Maintenance Inspector. The Inspector can try to pair you up with an agency, which can provide assistance.

The Streets Division has piles of sand available for the use of City of Madison residents. The nearest to our neighborhood are located at Brittingham Park (entrance off W. Washington) and Glenway Golf Course (parking lot off Speedway). Bring your bucket and shovel. To report a sidewalk that has not been shoveled, complete information at <https://www.cityofmadison.com/reportaproblem/sidewalk.cfm>.

## Karma Flow Yoga

Karma Flow Yoga classes are now being held at The Fit, 1709 Monroe Street. They wish to share the opportunity for self-care, discovery, and compassion through a 'pay-what-you-can' model, according to Kellie Kaddatz. "Your participation in classes, donations, and referrals are all helping to create this ideal community in which the members feel welcome, supported, and accepted no matter how much money they have, how flexible they are, how fancy their yoga clothes are, or how long they have been practicing yoga." Check [www.karma-flowfitness.com](http://www.karma-flowfitness.com) or call 475-1216.

## Ma Cha Teahouse Closing

After eight years on Monroe Street, the Ma Cha Teahouse and Gallery will be closing on December 23. The owners say they have been "very fortunate to be in this wonderful neighborhood." They will be selling bulk teas online. If you are in-

terested, stop in and sign up to be on the mailing list. Thanks for your years in the neighborhood and best wishes for you.

## Tattoo Opens

"A Dead Anchor Tattoo" has moved into the lower level of 1925 Monroe Street. Welcome to Monroe Street. Check their website [www.adeanchortattoo.com](http://www.adeanchortattoo.com) for further information.

## Biking at Night

For safe night bicycling, the City Traffic Engineering recommends:

- A bright white front light to be visible, required by law.
- A flashing red rear reflector to get the driver's attention or a white solid light.
- Add reflective leg bands, lights that move or flash, and wear a reflective vest.
- A front light that allows you to see the road 35-50 feet in front of you.

Remember, there is no such thing as being too visible or too bright when bicycling at night!

(From Be Bright, City of Madison Traffic Engineering)

## Reporting Speeders

If you have concerns about speeders, you can complete the form "Report a Problem: Traffic Enforcement" at the city website: <https://www.cityofmadison.com/reportaproblem/traffickenforcement.cfm> or call the Madison Police Speeding Hotline, 266-4624. Complaints will be addressed either by the Traffic Enforcement Safety Team, by the appropriate district, or as a combined effort, according to the website.

### Reliable Renovations LLC

Environmentally-Friendly · Design · Remodeling · Repairs

# Alder Dailey Reports

The reconstruction of Monroe Street was pushed back from 2016 to 2017. This was done primarily to prevent compounded city-wide traffic issues with Verona Road being reconstructed at the Beltline at the same time. Because of the danger to pedestrians at some of Monroe Street's poorly designed crossings, I argued against the change, but lost. However, due to the new extended time we'll be waiting for a new street, the city is investing in some interim improvements, including street surface patching, and in the spring will add new

types of markings and warnings to improve some pedestrian crossings.

Alder Lucas Dailey

A proposal for 3414 Monroe has been announced and a public meeting was held to introduce it and answer questions. You can learn about the proposal here: [www.cityofmadison.com/council/district13/development/](http://www.cityofmadison.com/council/district13/development/). The project conforms with zoning laws so it isn't subject to

conditional use approvals, although it will be reviewed for being adjacent to a

historic landmark property (the historic Plough Inn is two buildings away but causes the entire property to be considered historic).

Milwaukee-based Colectivo Coffee is opening its second store in Madison on the 2500 block of Monroe Street, next to the Monroe Street Arts Center. At the time of this writing they are in the middle of a major renovation that will turn one of the three building bays into a 3-season-open-air room with skylights, to feel like a street-cafe despite our narrow Monroe Street sidewalks.

Lucas Dailey, District 13 Alder, 535-1214

Subscribe to District 13 updates at [www.cityofmadison.com/council/district13/](http://www.cityofmadison.com/council/district13/)

## Thanks! Beer Tasting is Success

DMNA's Beer Tasting Social in October was a success, thanks to Jane Albert and Sue and Rick Herndon for organizing the event and to Joanne Berg, owner of Mystery to Me, for hosting the evening.

Thanks to Linda McQuillen, chair of the Membership Committee, for coordinating the membership drive and compiling membership materials for each block captain; to area representatives for distributing the materials; and to all the block captains for going door-to-door to get our memberships.

Our thanks to Shawn Schey for editing and publishing "The Park

& Pleasure Drive: Jewel in Madison's Crown." Contributions by several

neighbors are included in the booklet. The publication is being distributed to DMNA residents with the membership drive. DMNA and Edgewood College provided funding for the publication.

# Kick Salt Habit for the Sake of Lake Wingra

By Jim Baumann and David Thompson, Friends of Lake Wingra

Madison's waterways are clearly impacted by winter salt use. Steadily increasing levels of chlorides from deicers have been found in Lake Wingra. Most of the salt is from highways, streets and parking lots, but home use also contributes.

We checked the formulas for most deicer salts now available in Madison. All are harmful to the lakes, your garden, and concrete; most contain chloride. Some, like *Pet Safe* or *Ace Ice Melter*, even contain urea, a fertilizer. So if you have ice on a slope, we recommend sand to reduce slipping.

If you must use deicer, consider these ways to reduce the quantity: Limit use to no more than one pound of salt (NaCl) per 200 square feet of ice. A heaping 12 ounce cup should be enough for a 60 foot icy sidewalk. A hand-held spreader helps you spread the salt evenly. More salt does not mean more melting. Salt will not work when the temperature is 15° F or lower. If salt is visible on dry pavement, sweep up the extra salt for future use.

Consider using the sun to melt ice on your sidewalk. Few people realize that ice evaporates directly to water vapor, even when temperatures are well below

zero. It's called "sublimation".

You can speed sublimation by keeping your sidewalk shoveled. Even if there is a thin layer of snow or ice remaining on the pavement, the sun will penetrate, heat the pavement underneath, and cause the overlying ice to sublimate. If you sweep away a fresh dusting of snow, or chop some of the ice, the sun heats the spot of bare pavement, causing the surrounding ice to evaporate even faster.

So touch up your sidewalk before you go to work, and let the sun do the rest of the work. It works even when it's cloudy or really cold.

## Supervisor Erickson Reports

The main issue for Dane County recently has been the 2015 Budget. As proposed by the County Executive, the 2015 budget is approximately \$540 million, with a capital budget of \$39 million. County taxes represent roughly 15% of an individual's property tax bill. The increase is equal to a \$23.15 increase on the average home valued at \$237,678.

As your County Board Supervisor, my

priorities for the 2015 budget include: 1) maintaining the Office of Lakes & Watershed and necessary staff in the Land and Water Resources Department; 2) LTE funding for documenting our sustainability and energy savings achievements; 3) funding for our sister county relationship.

Additionally, I'm sponsoring a budget amendment which provides funding to the Jewish Social Services' Immigration Services Program that provides legal and social services to the low/ no income émigré community.

For 2015, there will \$10 million to address lake-polluting phosphorus which includes: community manure storage grants, new technology to eliminate

100% of phosphorus from manure digesters, new soil conservationists, and \$1 million for urban water quality grants to address stormwater outflows that discharge directly into our lakes.

At its November 6 meeting, the County Board voted to streamline the 911 center's governance structure. This was a controversial decision. However, I think the new governing structure will increase public safety and make emergency call response times shorter. In addition, I introduced a resolution asking the DNR to consider the cumulative effects of high capacity wells during its permitting process.

# Did Your House Arrive on a Train?

By Ann Clark

Homes in our neighborhood were mostly built between 1908 and 1940, the years that Sears had a thriving business selling homes and shipping them by rail across North America as kits. We know from owners' reports over the years that at least a few of our neighborhood homes' original owners were customers. We suspect there are more.

Everything needed was included, right down to the last nail, often 30,000 pieces. Houses were often actually built by owners, relatives and friends in an

urban version of barn-raising. The company's sales records were lost, so finding out whether your house is one of these sturdy homes is a detective hunt. The

most helpful clue is to find a combination of letters and numbers stamped on an attic or basement beam or to find your house in one of their hundreds of designs (images at searsarchives.com). Wikipedia's entry (Wikipedia.org/wiki/sears\_Catalog\_Home) includes several other tips from an expert.

If you learn that your house is a Sears Modern Home, please pass the information on to hornblower@dmna.org. Happy Hunting!

## Wingra School's New Outdoor Classroom

By Paul Brahce

Wingra School's plans for a new outdoor classroom were recently approved by the Urban Design Commission. The outdoor classroom should be in place in December. This structure is the first component of Wingra's vision for updating the outdoor learning and play areas adjacent to the school. Located on the southwest side of the building, the outdoor classroom will be open and available for neighbors to use when school is not in session.

This project was initiated by Wingra School teacher Weslie Cymerman to provide additional opportunities for students to be outdoors during the school day. An Outdoor Classroom committee was formed that included school staff members, parents and extended community members. This committee elicited ideas from all constituents to inform the design—including input from Wingra students and DMNA garden committee members.

responsib<sup>e</sup>energy

turn it down when you're not around

Save energy and money this winter. Turn back your thermostat while asleep or at work. Each degree can save 1% on your heating bill. If we all setback 1°, we'll save enough gas for 3,100 homes. Bigger setbacks save even more.

Visit [mge.com/setback](http://mge.com/setback) to calculate your savings or call 252-7117.
