

24th DMNA Jazz in the Park June 20

By Tyler Leeper, Jazz in the Park Chair

Stop everything and write “INCREDIBLE DAY OF FUN” on your calendars for Saturday, June 20. This is the 24th DMNA Jazz in the Park. Our incredible team has put together a great afternoon of activities.

The day will kick off at noon with the arts and craft fair and at 3:00 p.m. kids activities start with Madison Log Rolling and the Monroe Street Fine Arts Center craft table. Four bands will be on stage from 3:00-9:00 p.m. And this year we have two new additions to the day.

NEW: ARTS AND CRAFT FAIR. Vendors, including neighborhood businesses and artists from all over our neighborhood, will be showing off their wares, so bring your pocketbook! A big thank-you

to Francie Wesley for her hard work coordinating this event.

NEW: ZERO WASTE EVENT. This year the JIP Committee will be working to collect, sort and recycle as much of the trash as possible. Volunteers are needed to help staff and sort the trash stations. A big thank you to Debi-Leeper, Ann Sydnor and John Imes for their work on this recycling project.

Jazz in the Park is a celebration of our neighborhood and an opportunity to get together and share a wonderful afternoon of music and community. This event is supported by the businesses of Monroe Street and sponsored by the Dudgeon-Monroe Neighborhood Association. Thank you to Kelly Thompson and a HUGE THANK-YOU to all of our Monroe Street businesses that support this wonderful event!

Event Schedule

Noon – 6:00 p.m.

ARTS AND CRAFT FAIR

3:00 – 6:00 p.m.

KIDS ACTIVITIES

- Arts and Crafts hosted by the Monroe Street Fine Arts Center
- Log Rolling hosted by Madison Log Rolling

3:00 – 9:00 p.m.

JAZZ-JAZZ and MORE

- | | |
|--------------------------|------------------|
| • High School All-Stars | 3:00 - 4:00 p.m. |
| • Edgewood Jazz Ensemble | 4:30 - 5:30 p.m. |
| • Trap Saturn | 6:00 - 7:00 p.m. |
| • MadiSalsa | 7:30 - 9:00 p.m. |

July 4th Parade and Celebration

By Katie Ginder-Vogel and Emily Balsley, Co-Chairs

Come celebrate July 4th with your Dudgeon-Monroe neighbors! We would love to see ALL of you on Saturday, July 4, for the parade from Michael's Frozen Custard to Wingra Park, where we'll play games, mingle with neighbors, and enjoy snacks donated by our wonderful Monroe Street businesses. Make it a picnic and stay as long as you like!

WHEN: Saturday, July 4

WHERE: Start at Michael's Frozen Custard, where kids can decorate their wheels. Deco-

rating supplies will be available for kids to use, thanks to our favorite neighborhood pharmacy and costume store, Mallatt's. The parade will end in Wingra Park for games and snacks.

TIMES:

9:30 - 10:15 a.m. - Decorating in the Michael's Frozen Custard parking lot

10:15 - 10:30 a.m. - Parade around the corner (Monroe to Knickerbocker to Arbor) to Wingra Park

10:30 - 12:30 p.m. - Lawn games for kids of all ages, snacks from neighborhood businesses, and time to relax with neighbors.

We are always hoping for a few more volunteers to help make this event even better! Here are a few ways you can help:

- Hang up event posters around the neighborhood.

President's Message

Dear DMNA Neighbors,

It is an honor and a pleasure to serve as DMNA's president. I grew up on Woodrow Street and Terry Place and have lived in four apartments on Monroe Street. You may know me as the owner of Wingra Boats, but I also have served as Jazz in the Park Committee chair for the last five years and have been a member of DMNA for many more. As I prepare to take this position, I have reflected on the changes and accomplishments in our neighborhood over the last 15 years and the opportunities and challenges that remain.

As with most things, our community experiences cycles of interest and involvement. The last couple years I have seen interest in Glenwood Children's Park (which is looking great but still needs volunteers), and Southwest Path lighting, as well as concern about traffic issues and accidents on Monroe Street. One of the ongoing cycles that has significantly impacted our neighborhood is development. History Committee Chair Stephen Billingham recently reminded me that DMNA was created to help retain the Dudgeon School property that was being considered for development. More recent development projects include Parman Place, The Monroe, Wingra Shores and the design of 3414 Monroe at Glenway, in addition to restaurants Colectivo, Gates & Brovi and Freiburg Gastropub.

These changes have often been controversial. As I look to the future, I believe there will be more development, and I do not fear the controversy. We are a group of intelligent people, with diverse views,

backgrounds and experiences that inevitably will create differences of opinion. The controversy around these projects is a byproduct of passionate, involved people and this is exactly what makes this neighborhood one of the best in Madison. I don't ask you to avoid bringing your passion and activism to this issues; we will be stronger as a neighborhood if we hear from everyone. I encourage you to join a committee: Zoning, Transportation, Parks & Gardens or another. Get involved, be passionate. Just remember we are all part of the same community. We are neighbors, we are family, and we always need to act from a place of friendship and respect, even when we disagree.

Thank you for the opportunity to serve this wonderful neighborhood.

Tyler Leeper

Fourth of July continued

- Sign up with your kids to help staff the kids' games, nail painting, etc.
- Help with setup the morning of July 4 or cleanup when decorating has concluded.

Please email Katie Ginder-Vogel, katiegv@gmail.com, or Emily Balsley, emily.bluestar@gmail.com, if you would like to volunteer! Hope to see you all on July 4th!

Neighborhood Grant for Tours and Trails

By Sandy Stark, Southwest Path Chair

The DMNA received from the City of Madison a Neighborhood Grant for "Tours and Trails." The project and grant application was spearheaded by SW Path Committee, with participation by the Parks and Gardens and History Committees. The DMNA award is for a nature and culture pathway through a portion of the Dodge-Monroe neighborhood and the Lake Wingra watershed. The emphasis of the trail will be on the history and culture of the area and on the beneficial relations of humans with the watershed environment.

Official events will begin in the first half of June with two tours:

1. A walk between the two Jens Jensen Council Rings in our neighborhood:

Glenwood Park Council Ring, at the steep end of the park near the SW Path, and the Wheeler Council Ring in the UW Arboretum off Arbor Drive. This will be part of a "neighborhood landscape history tour."

2. A walking and/or biking tour of native plantings and special features along and accessible from the SW Path east and south between Glenway and Wingra Park: path plantings, parks and small-lot gardens, and a visit to the UW Arboretum off Monroe Street. This will be a "nature trail focus".

Watch for butterfly garden tours and migrating birds tours in the summer and fall. We will wind up with seed collecting and scattering. Some of these events will coincide with path committee work, as

announced. Watch for dates and times at postings on dmnanews emails and at www.dmna.org.

SW Path work events at the Glenway Prairie/Path site are the second Saturday of each month through October. We generally meet from 10:00 a.m.-noon, but as the weather gets hot, we can meet as early as 9:00 a.m., so watch for notices.

Prospect Garden workdays are listed under "Upcoming Events." Individuals may also work on their own schedule. Contact coordinator Jake Blasczyk, jblasczyk13@gmail.com or 251-9506. Jake has created a blog that chronicles the progress and provides information about the gardens along the Southwest Path: www.gardensprospect.blogspot.com.

Calling All Photographers!

By Heather Marley, Directory Committee Chair

Where is your favorite place in our neighborhood? Is it on one of the piers at Wingra Park, under one of the red and white umbrellas at Michael's Frozen Custard, or maybe just a shady spot under one of the many trees? Wherever it is we'd love to see it! In a neighborhood with so many picturesque spots we certainly don't lack subject matter. With the weather getting warmer every day, there is no time like the present to get out there and start snapping pictures. There is no better way to share your favorite spot than on the cover of the DMNA directory!

The DMNA Directory Committee is looking for pictures of your favorite spot to go on the cover of the next neighborhood di-

rectory. Please submit your original (high-resolution) photo with your name and address to: Hornblower@dmna.org by June 20. All approved pictures will be posted on the DMNA website beginning June 27. We encourage everyone to visit www.dmna.org between June 27 and July 20 to vote on their favorite photo. The winning picture will be announced by July 30. By submitting your photo, you are giving permission for it to be published in any DMNA publication and verifying the photo has not been previously published. The new directory

will be available for the Fall Membership Drive by September 2015.

We look forward to seeing your pictures!

Why wait until spring to tackle that paint job? With our non-toxic paint, you can get the new look you want right now. No toxins. No fumes. Safe for your family—all year round.

A Little Cash Can Save an Ash!

By Percy Mather, Parks and Gardens Committee

Can you imagine playing on hot slides, sizzling swings, and burning monkey bars? The playground area at Wingra Park will have these dangers in the future due to the emerald ash borer (EAB). The park has three mature ash trees that provide crucial shade for the playground area. These trees are in danger of dying unless they are treated.

EAB is in Madison, threatening any ash tree more than a few inches in diameter. EAB larvae penetrate the bark and devour the tissues beneath it that convey water and nutrients between roots and

leaves. Based on experience in Michigan and Ohio, untreated trees die within two to five years of infestation.

The City of Madison has pledged to treat healthy ash trees along our streets which are not located under utility lines. The treatment consists of injection of insecticide during May – June. This kills the larvae and protects the tree for at least two years.

The problem is that there isn't enough money to treat ash trees along streets as well as in our parks. DMNA Parks & Gardens Committee is asking neighborhood residents and park users to donate

money so that the crucial trees shading Wingra's playground can be treated through the Adopt-a-Park program. The estimated cost for treatment of the three trees is \$800 for two years of protection.

Send checks to help save Wingra Park ash trees, made payable to DMNA, to the treasurer, Julia Billingham, 648 Sprague Street, 53711. Donations are tax-deductible; note "Wingra ash trees."

Thank you. Questions? Contact Percy Mather, percy.mather@gmail.com or 233-1955.

Parks and Gardens Opportunities

By Percy Mather, Parks and Gardens

Volunteers are welcome to join us on workdays at Glenwood Children's Park and Wingra Park Orchard Garden, now including a butterfly garden! Tools, instruction, water, and occasional snacks are provided. Work gloves, hats and sunglasses are recommended. See Upcoming Events for dates and times. To schedule additional hours, call 233-1955 or email percy.mather@gmail.com.

Cherry Fest: A volunteer appreciation

event for anyone who has donated at least four hours of time to a DMNA park or path project will be held at 3:00 p.m. on Saturday, June 27. Rain date: 3:00 p.m. Sunday, June 28.

Residents in three neighborhoods are optimistic about siting a community garden this year along the SW Path near Odana Road. Send an email to SWCommunityGarden@gmail.com to receive more information.

Can Turtles Breathe Through Their Tails?*

By Debi Leeper

Kids, have you ever wondered how cold turtles are, where they go in the winter, or the purpose of the patterns on their shell? Come to Science Thursdays at Wingra Boats to find the answers to these and many other exciting questions! Science Thursdays are held every Thursday from 6:00-7:00 p.m. throughout the summer June 18-August 20 and provide a free science workshop to explore the answers to these and many more.

Lake Wingra is a beautiful, natural and accessible ecosystem right in our backyard. People of all ages have been exploring and studying Lake Wingra for

years. In 2009 Wingra Boats formalized their Outdoor Education Program and since 2012 the DMNA has generously supported Science Thursdays to help people of all ages understand the beauty and importance of the Wingra watershed.

Science Thursdays are led by educators and naturalists on a variety of topics. These workshops are targeted at elementary age kids, but material is provided to challenge and interest children of all ages. No reservations are required. Sessions start promptly at 6:00 p.m.

continued on page 5

New Developments Along Monroe Street

By Lynn Pitman, Zoning Committee Chair

It has been a busy spring on the development front in the Dudgeon-Monroe neighborhood, with actions taken on the proposed new development at 3414 Monroe Street and the new Freiburg Gastropub at 2612 Monroe.

The Plan Commission in a 5-4 vote approved the proposal to demolish the current building at 3414 Monroe and build a four-story mixed-use building with 3500 square feet of commercial space, 19 apartments, and underground parking. The approval was subject to several conditions: that the parking ramp be narrowed to 16-18 feet so that the building could be stepped back further from the Arbor House lot line, and that a landscape plan for protecting the trees and a green buffer between the Arbor House and the new building be submitted and approved before final approval.

The DMNA Council submitted a statement opposing the project as configured, and urged both parties to explore trade-offs between size, underground parking, and proximity to the Arbor House lot line, given the impact of the building on the Arbor House site that includes the historic Plough Inn, a Landmark site. It also requested any new development require a landscape plan that would improve greenspace. The Zoning Committee will stay involved with the project as it moves forward.

The application for a liquor license by the new Freiburg Gastropub was initially turned down by the Alcohol Licensing and Review Committee in March. Neighborhood questions about outdoor seating, parking, hours, and location surfaced after a public meeting two days before the ALRC hearing. However, Zoning Committee members worked with the owners

and neighbors to address immediate concerns, and the license was approved at the City Council meeting on April 8. Outdoor seating is no longer planned, and restaurant parking will be available at the Luedtke-Storm-Mackey building. Work with Vilas Neighborhood Association is underway to develop a Good Neighbor Agreement for businesses wishing to apply for alcohol licenses. These guidelines will help businesses work with their residential neighbors to avoid future conflicts over issues such as noise or hours of operation. See www.dmn.org/zoning-committee for current updates.

Turtles continued

and end at 7:00 p.m. with a snack and a chance to visit with neighbors. Check the Wingraboats.com website for a listing of upcoming Science Thursday topics. Parents, mark your calendars to bring your children to as many Science Thursdays as you can this summer. It is a way of continuing your child's science education through hands-on experiential learning.

*Answer: During the winter most turtles hibernate at the bottom of the lake. They allow their body to get cold and slow down so much so that their heart only

beats once every couple minutes. They stop breathing through their lungs and they are able to extract enough oxygen from the water through specialized skin cells that are just inside the tail opening. Water turtles can stay like this for two or three months. (Obtained from www.turtlepuddle.org/kidspage/hibernation.html)

New Monroe Street Farmers Market

Come to Edgewood High School parking lot 9:00 a.m.-1:00 p.m. Sundays for the new Monroe Street Farmers Market, planned to begin June 7. The market will offer a variety of fresh produce, meats and other locally made food products such as cheese and baked goods. Lucas Lippert, who is working with many neighbors to organize the market, says that volunteers are needed to help on market days. "This will be a fun, walkable community event, which supports local farmers." For more information: www.monroestreetfarmersmarket.com.

Monroe Street Reconstruction 2017

Monroe Street now is scheduled to be resurfaced from Odana Road to Leonard Street and reconstructed from Leonard Street to Regent Street in 2017. For information about the project and to sign up for emails from City Engineering see: <https://www.cityofmadison.com/engineering/monroe>.

Freiburg Gastropub on Monroe

The Freiburg Gastropub, 2612 Monroe Street, plans to open mid-June, according to owners Steve Weber and Jack Sosnowski. The contemporary German menu will feature fresh, local produce and quality ingredients. Specialties will include chicken liver pâté and potato pancakes, house bratwurst, pierogi and smoked trout salad, grilled quail, veal cutlet, and seared scallops with potato dumplings. Pleased to locate in the remodeled 1930s building, the owners stress that the restaurant

is "for the neighborhood" and encourage walkers and bicyclers.

Make Music Madison June 21

The free, citywide Make Music Madison music event ushers in summer on Sunday, June 21. Outdoor performance stages located on Monroe Street include Monroe Commons, Wingra Park, Michael's Frozen Custard and Hotel-RED. Take your pick from blues and bluegrass, rock and pop, indie folk, contra-dance music, musical show tunes, mariachi and more. Information about performers and performance times is at www.monroestreetmadison.com.

Keys to Keeping Your Home Safe

While the overall average number of thefts and burglaries in the Dudgeon-Monroe neighborhood dropped last year, summer typically brings about an "uptick" in these crimes according to Madison Police Officer Molly Jean Thomson. Thomson explained that open windows and doors and items in your yard are easy targets for burglars and thieves. Here is her advice for protecting your home, belongings and yourself this summer. Lock the doors when you are out in the yard and when you are in your house, even during daylight hours, as well as when you are away from your house. Equip your windows with limiting devices that keep windows from opening enough to let a person get in. Get to know your neighbors so they can keep an eye on your house. If you are unfortunate enough to be a victim of a burglary, call the police.

Like a Good Neighbor

Our neighborhood is a terrific place to enjoy summer,

but please keep in mind that one person's summer fun may be another person's nuisance or health issue. Keep outdoor noise levels low after dark and in the early-morning hours. Check to make sure that smoke from your grill, fireplace or pit doesn't waft into your neighbors' open windows and doors. Remember that all dogs and cats must wear license, rabies and owner identification tags and must be leashed if they leave your property. Finally, be sure to clean up after your pet. Thank you!

July 4th Fireworks Tips

As you make your plans for a festive Fourth of July remember that under city ordinances only sparklers, snakes, snaps, caps and party poppers are legal in Madison. A citation bail of \$172 and fines of up to \$1,000 plus court costs may be levied against individuals found to be using fireworks in violation of city ordinances, even for a first offense. You can view fireworks at two free community events: the Lake Monona Shake the Lake celebration Saturday night, June 27, and the Elver Park event Thursday night, July 2.

My Bike's Been Stolen!

Why go to the trouble of registering your bike? Here's why: 1) Registering your bike greatly increases the likelihood that if your bike is stolen it will be returned to you. 2) The registration sticker on your bike serves as a deterrent to potential bike thieves. 3) A city ordinance requires all bicycles used by Madison residents are registered. A four-year bike registration is only \$10. Go to www.cityofmadison.com/bikeMadison and

BBQ Aficionados Rejoice

Double SS Barbeque is moving to 1835 Monroe Street, the space formerly occupied by J. Kinney Florist. The award-winning restaurant and caterer, previously located in Cambridge, specializes in Texas-style barbeque, Cajun boudin (a spicy sausage) and tamales. The targeted date for the opening is July. J. Kinney Florist will continue to design flowers for weddings

and special events. For more information: 255-7500 or info@jkinneyflorist.com.

HotelRED Renovation Complete

HotelRED, 1801 Monroe Street, is a little bit more Wisconsin thanks to a recently completed renovation. An approximately 800-foot extension brings the number of dinners who can be seated in the dining area of The Wise Restaurant & Bar to about 50. Large new sliding glass doors open directly from The Wise into an outdoor seating area. Touches of Badger red have been added to the updated contem-

porary black-white-and-brown interior décor, and a new menu features Wisconsin food and beverage favorites sourced from Wisconsin producers.

Ginkgo Tree Closes Its Door

The Ginkgo Tree gift-and-home-accessories specialty store, 1919 Monroe Street, is packing up and moving to a new location in Verona. The shop's last day of business is June 15. All in-stock items are 50 percent off.

14,000 Years of Neighborhood History

By Stephen Billingham, History Committee Chair

Guest speaker at the April 19 DMNA Annual Meeting was Robert Birmingham, Ph.D., former state archaeologist for the Wisconsin Historical Society. Birmingham gave a 45-minute synopsis of 14,000

stand our locale as a spiritually sacred center for civilization over millennia. Lake Wingra Springs are the abode of powerful water spirits, serpent beasts and underground water panthers, and the very source of life itself. Great celestial birds, invisible but very powerful and making thunder as they flew, were extremely helpful to the people of our sacred land. Spirit bears had providence of the earth. Native people lived to mitigate the balances of these great powers of order and chaos. Spiritual beings were brought to life by the ritual creation of earth effigy mounds, at the places where the spirits actually lived—here where Dudgeon School stands, on the Dividing Ridge, in Forest Hill Cemetery, along the lakeshores, and in a continuous landscape surrounding our lake.

At the completion of his presentation, Birmingham led a tour

of the effigy mounds on the Edgewood College campus. As Birmingham writes in his book, *Spirit of the Earth: The Effigy Mound Landscape of Madison and the Four Lakes* (University of Wisconsin Press, 2009), the mounds surrounding Lake Wingra "...are among the densest and most impressive effigy mound groupings found anywhere."

Watch www.dmna.org for events related to the DMNA Nature, Cultural and History Trail coming soon, with events being planned for this summer. See links to resources on Native history and mound-building cultures in the area.

New officers elected at the DMNA Annual Meeting are: president—Tyler Leeper; vice president—Daryl Sherman; secretary—Amy Cusick. Continuing as treasurer is Julia Billingham. Outgoing officers are Al Nettleton, Charlie Crisanti and Marcia Diamond.

Pie at Annual DMNA Meeting: Tyler Leeper, Jane Albert, Anna Peterson

Alder Eskrich Reports

Neighbors – It is such an honor to have been elected to serve as your alder here in District 13. I know that we all appreciated that we had such a positive local election with so many residents engaging deeply in the electoral process. Thank you.

I have quickly been diving into district and city-wide issues with my new col-

leagues on the Common Council. I am pleased to announce that I will be serving on many important committees, including Affirmative Action Commission, Board of the Bayview Foundation, Board of Estimates, Capital East District Committee, Community Development Authority, Joint Southeast Campus Area Committee, Joint West Campus Area Committee, and Henry Vilas Zoo Commission.

This is a very exciting time in Madison, but we have our work cut out for us. I will

continue to rely on the many community organizations in our city, including our own

Dudgeon-Monroe Neighborhood Association, to help learn and prioritize issues. The work of governance is all our work.

Please stay in touch with me through my alder email account (district13@cityofmadison.com) or 608-669-6979, and at the district webpage (www.cityofmadison.com/council/district13). You can sign up for my email updates, which I plan to send regularly, at that website.

I prioritize communication and look forward to working together to continue making our neighborhood one of the best places to live, work, and play.

Supervisor Erickson Reports

Addressing Racial Disparities and Mental Health Issues in the Dane County Criminal Justice System: The Dane County criminal justice system has some of the most significant racial disparity issues in the country. To address ongoing concerns of racial disparity and mental health in our criminal justice system, a resolution dealing with these issues will be before the county board in May. The resolution establishes three Public Protection and Judiciary Committee work groups to study these issues: 1) inmates' length of stay; 2) mental health issues facing inmates; and 3) alternatives to incarceration. Other issues to be addressed include eliminating solitary confinement and safety issues in the Dane County jail.

Groundwater and High-Capacity Wells: With Lake Wingra bordering our neighborhood, we are clearly aware of surface water quality issues. Groundwater is also a significant issue. Many counties in Wisconsin have passed resolutions to address groundwater concerns, specifically high-capacity well drilling, and how permits for these wells are approved. These counties have experienced serious depletion of groundwater flowing into rivers, streams and lakes. High-capacity wells are dug for

business, agricultural interests and municipalities. The Dane County Board passed a resolution that I introduced to address groundwater issues here in Dane County, asking the DNR to consider the cumulative effect of high-capacity wells and make groundwater issues a priority for Dane County government.

Kassel, Germany Sister County: The chamber music ensemble Con Vivo! has been invited to represent Dane County and perform at the "Kultursommer Nordhessen" Arts Festival and four concerts in the county of Kassel, Germany, in June.

Thank You!

- Thank you to new, outgoing and continuing officers for their service to DMNA

Thanks also go to:

- Outgoing committee chairs Linda McQuillan, Membership, and Charlie Crisanti, Transportation.
- Jane and Bill Albert and Anna Peterson, Social Committee, for coordinating and serving pies baked by council members, ice cream and coffee at the Annual Meeting.
- The Nominating Committee, Sandy Stark, Julia Billingham and Jane Albert, for their work in recruiting volunteers as new officers.
- All the ongoing work of DMNA committees and many volunteers.

Lake Wingra Watershed Plan

By Linell Davis

Everyone wants to save the lakes in July, but they want clear streets in January. To protect and improve water quality in Lake Wingra we need to change our expectations and the norms that govern our behavior. That means learning to live with less salt. This is one message from the Madison City Engineering meeting held on March 26, 2015, to present and discuss the Lake Wingra Watershed Plan. The plan has been in development since 2011 in response to "Lake Wingra: A Vision for the Future" published by Friends of Lake Wingra in 2009. The original publication can be viewed at <http://www.lakewingra.org/>. The current Lake Wingra Watershed Plan is a joint initiative of City Engineering and Friends of Lake Wingra.

Reducing salt flowing into the lake is one of three goals presented, along with reducing phosphorous and increasing water infiltration. The Watershed Plan calls for

both resident actions and City initiatives. To reduce phosphorous homeowners can keep leaves and grass clippings off the streets and out of gutters. Meanwhile, one way the City is addressing phosphorus concerns is through the alum treatment pilot project at the Marion Dunn Pond in the UW Arboretum along Monroe Street.

Studies show that spreading between 3 to 5 pounds per 1,000 square feet of salt is enough to melt snow, but both commercial and private applicators spread as much as 25 to 30 pounds per 1,000 square foot. The City is reducing salt use by applying anti-icing solutions on streets before storms, but other major contributors to the salt problem are commercial, multifamily and institutional facilities. Community support is essential to set standards for commercial applications of salt.

Lake Wingra has lost water infiltration because of significant development in the watershed. Residents can help by

reducing impervious structures, creating rain gardens and by supporting proposals for erosion control, storm water management, and infiltration requirements for developers.

With increased awareness, education and commitment, we can all become better environmental stewards. Learn more about community action from the slides presented at the Watershed Plan meeting, at: <http://www.cityofmadison.com/engineering/stormwater>

**Recycle your
old refrigerator
or freezer**

Chances are the older refrigerator or freezer in your basement or garage is running up your utility bill by an average of \$150 a year. Recycle it, reduce your energy use and keep harmful materials out of landfills. We'll pick it up for free, and you'll pick up a \$40 reward.
